

Invitation to Participate in the ASEAN IP Register User Feedback Exercise

The ASEAN IP Register is a regional platform that provides access to intellectual property (IP) data from across ASEAN, allowing users to search and explore trademarks, patents, and industrial designs information from participating ASEAN Member States. The platform is continually being enhanced to better support businesses, innovators, investors, IP professionals, and policymakers in making informed decisions and leveraging IP data for strategic and commercial purposes.

To support the ongoing development of the ASEAN IP Register, WIPO would like to invite members of **LES Singapore** including businesses, law firms, IP practitioners, consultants, and other stakeholders, to participate in a user feedback exercise.

What We Ask of You

Participants are invited to:

- Explore and use the ASEAN IP Register based on their business or professional needs;
- Test the platform's search, filtering, and data exploration functionalities; and
- Complete a short feedback form to share their experience, views, and recommendations for improvement.

The feedback form is expected to take approximately **10–15 minutes** to complete.

Why Your Feedback Matters

Your feedback is important to us. The ASEAN IP Register is being developed to meet the needs of users across the region, and your insights will help ASEAN Member States and WIPO better understand how businesses and IP professionals use the platform and how it can be further improved.

The feedback collected will contribute to:

- Enhancing the user experience and functionality of the platform;
- Identifying new features and services that would be valuable to users;
- Improving access to IP information and data-driven insights; and
- Ensuring the ASEAN IP Register remains relevant and responsive to the needs of the business and innovation community.

Selected participants may also be invited to share their experiences and recommendations directly with ASEAN Member States at a future ASEAN IP Register meeting. This will provide an opportunity for users to contribute to discussions on the future development of the platform and ensure that private-sector perspectives are reflected in its continued evolution.

Who Should Participate?

We welcome feedback from:

- Businesses and enterprises of all sizes;
- Start-ups and innovators;
- Law firms and IP law practitioners;
- Patent and trademark agents;
- Consultants and business advisors;
- Investors and business support organizations; and
- Universities and research institutions.

Whether you are an experienced IP professional or a first-time user of IP data, your feedback will be valuable.
